Mehrad Ata

Web Designer | Full-Stack Development |
Musician | Composer

Professional Summary

Interactive Media Management student at Sheridan College with hands-on experience in front-end and full-stack web development, focused on building responsive, accessible, and user-centered digital experiences. Skilled in translating design concepts into clean, maintainable, and scalable code using modern web technologies.

Brings a rare creative-technical background, combining web development with over 20 years of professional experience in music performance, composition, and instruction. This multidisciplinary profile supports strong storytelling, visual sensibility, usability awareness, and audience-focused design thinking.

PROFESSIONAL EXPERIENCE

Web Developer

Iranian Leasing Company — Tehran, Iran *May 2024 – Aug 2025 | Contract, Full-time | On-site*

- Designed and developed responsive, multi-page websites using HTML, CSS, JavaScript, Bootstrap, and Tailwind CSS.
- Translated UI designs and mockups into production-ready code with a strong focus on usability, performance, and maintainability.
- Implemented interactive components and ensured cross-browser compatibility.
- Collaborated with internal teams to align technical solutions with business objectives.

Music Instructor (Part-time)

Multiple Institutes — Tehran, Iran *2015 – 2025*

- Taught Ney, Piano, and Pop Vocal techniques to students across various skill levels.
- Delivered structured instruction in music theory, harmony, solfege, and sight-reading.
- Designed customized lesson plans and prepared students for performances and formal evaluations.

Sales Associate

Iranian Leasing Company — Tehran, Iran *Jun 2022 – May 2024 | Full-time*

- Delivered customer-focused sales solutions in a fast-paced environment.
- Developed strong communication, teamwork, and client relationship management skills.

Sales Associate

Leasing Shahr Company — Tehran, Iran *Apr 2021 – Jun 2023 | Full-time*

- Supported commercial leasing processes and client presentations.
- Strengthened negotiation, customer service, and sales operations skills.

Sales Associate & Customer Service Representative

Iran Khodro Authorized Dealership *Nov 2017 – Jun 2019*

- Assisted customers with vehicle sales and purchase decisions in a high-volume dealership.
- Built long-term customer relationships through needs assessment and problem-solving.
- Managed documentation, follow-ups, and coordination with sales and finance teams.

SELECTED WEB PROJECTS

Mood-Based Music Recommendation Platform

- Designed and developed an interactive web platform that recommends and plays music based on user mood and weather conditions.
- Front end built with HTML, CSS, JavaScript, and AJAX using responsive design principles.
- Back end implemented with Python and MySQL for data handling and application logic.
- Utilized AJAX to dynamically fetch and update data without page reloads.

Restaurant Ordering Website

- Developed a responsive food ordering platform allowing users to browse menus and place orders.
- Built with HTML, CSS, JavaScript, and AJAX.
- Implemented Python and MySQL for menu management and order processing.

Interactive Music-Based Browser Game (ZIM.js)

- Designed and developed a game-like browser experience combining programming and music concepts.
- Built using JavaScript and the ZIM.js library with advanced event-driven logic.
- Implemented musical note interactions triggering real-time visual feedback.
- Fully responsive across desktop and mobile devices.

Interactive Browser Game (ZIM.js)

- Created an interactive JavaScript-based game featuring animation, scoring logic, sound effects, and user interaction mechanics.

Tea Brand Website (Golestan-Inspired)

- Developed a fully responsive Tailwind CSS website using a mobile-first approach.
- Converted Canva mockups into production-ready code.
- Managed the project using Vite for modern front-end tooling.

E-Commerce Website (Digikala-Inspired)

- Built a multi-page online store using HTML, CSS, and JavaScript.
- Implemented custom image sliders and interactive UI components.

Women's Fashion E-Commerce Website

- Designed and developed a product-focused clothing website emphasizing responsive layout and visual hierarchy.
 - Built primarily with HTML and CSS, with limited JavaScript for interactivity.
 - Used Vite for optimized workflow and faster development.
-
